

IMC Jail

Technology that streamlines corrections operations and management

Seamless Integration

- Fully integrated with other IMC products
- Master Names Index integration for automatic backfill of Names, SSN, and DOB
- Import Arrest data from Law RMS or export Intake data to Arrest
- Imaging (optional) to record and attach intake photos directly into report

Jail Management

- Prisoner Intake management including Booking, Medical Screening, and Inmate Classification
- Manage Prisoner Intakes and Releases, Incidents, Offenses, History Logs, Inmate Movements, and Holds
- Canteen and Inmate Accounts, Cell Movement, Programs Attended, Personal Contacts, Cell Tracking
- Track and analyze Inmate Infractions for best placement and schedule hearings
- Maintain detailed Visitor Logs and daily Jail Log entries
- Track prescriptions

Inmate Entry

- Suicide Evaluation, Medical Questions and Observation, Property, Bail, Images, Charges, Sentencing
- Visitor Log

Commissary

- Comprehensive Commissary Module to manage costs and invoicing
- Maintain a running inventory of commissary items enabling you to track commissary purchases and items issued to an inmate

Analysis

- Prisoner Population management with status and analysis reports
- Generate tabular and graphic reports including cell population reports, classification status reports, classification analysis reports and medical status reports

Budget

- Manage and track Transport Costs, Billings, Schedules and Resources
- Complete Agency billing management to track and maintain invoices

Scheduling, Attendance Tracking

- Separate Schedule functions for both Intake and Transport staff
- Print Schedules
- Track and Analyze Time Off and Sick Time

Jail Transport

- Prisoner Transport management with Run Schedules to and from multiple locations
- Generate Individual Run Sheets for each inmate
- Reporting and Analysis tools (tabular and graphs) to analyze Inmate Transportation operations

Recommended Options

- Jail Transport
- Administrative Manager
- Imaging
