

# Real Time Data Is a Real Big Deal.

But if you're like a lot of facilities, your correctional officers don't have access to mug shots and critical inmate data as they do their rounds. They're carrying printed schedules. Jotting notes on inmate movement. Returning to workstations later to record head counts and make shift log entries. Let's just say it's not ideal.

## Extend Your Jail Management.

Whether you manage a small jail or a large corrections system with multiple facilities, **Zuercher Jail Extend** allows your staff to perform key functions and access inmate records from a tablet. To individually receive and view unfinished assigned tasks. From daily tasks to managing inmate locations during an emergency: eliminate the need to be tied to a desktop computer to access your Zuercher Jail information.

## Mug Shots and Alerts -- Anytime, Anywhere.

**Jail Extend** gives you immediate access to key inmate information and mugshots from anywhere in the facility. Just a glance and you can see alerts, classifications, medical conditions, or restrictions right next to an inmate's photo on your tablet screen.

## There's a Better Way to Head Count.

Take your cell checks and head counts to your cells and recreation areas. Wherever your inmates are. All it takes is a few touches of the screen to log your data. You can even have multiple officers entering information at the same time.

## Inmate Movement, Right Where It Happens.

Checking inmates in and out of activities has never been easier. Log individuals or make bulk movements. **Jail Extend** can be integrated with your wristband barcode system for even more security.

## Shift Your Thinking on Shift Logs.

Access shift logs on the go. Track personnel movement and note regular events or unusual activity during your rounds. Right away.

## Make It Happen.

Extend the power of Zuercher Jail to improve your recordkeeping, workflow, and security. Contact our sales team for information or a demonstration of **Zuercher Jail Extend**.

*Compatible with iOS 7 or later, Android 4.4 or later, and Windows 7 or later.*

Zuercher Jail Extend

TAKE THE POWER OF ZUERCHER'S "ONE APPLICATION, ONE DATABASE" SOLUTION WHERE YOU NEED IT MOST WITH THE ZUERCHER **EXTEND** PLATFORM.

**EXTEND** DOES NOT SHRINK YOUR EXPERIENCE TO A TINY SCREEN. IT EXTENDS WHAT YOU CAN DO WITH AN INTERFACE DESIGNED SPECIFICALLY FOR YOUR MOBILE DEVICE.

THERE IS NO WAITING TO GET TO YOUR DESKTOP COMPUTER TO ACCESS THE KEY FEATURES AND FUNCTIONS THAT YOUR STAFF USES EVERY DAY. ACCESS AND UPDATE INFORMATION ON THE MOVE.

GET THE JOB DONE. DO IT NOW AND DO IT BETTER WITH **EXTEND**.
